Disk space to use (8-1024MB) (Recommended: 50-250MB) 50

Current location:
C:\Users\jero3\AppData\Local\Microsoft\Windows\Temporary Internet Files\
Move folder... View objects View files

History _____

Latest Drivers for your Digital Signature Certificate should be installed properly in the computer.

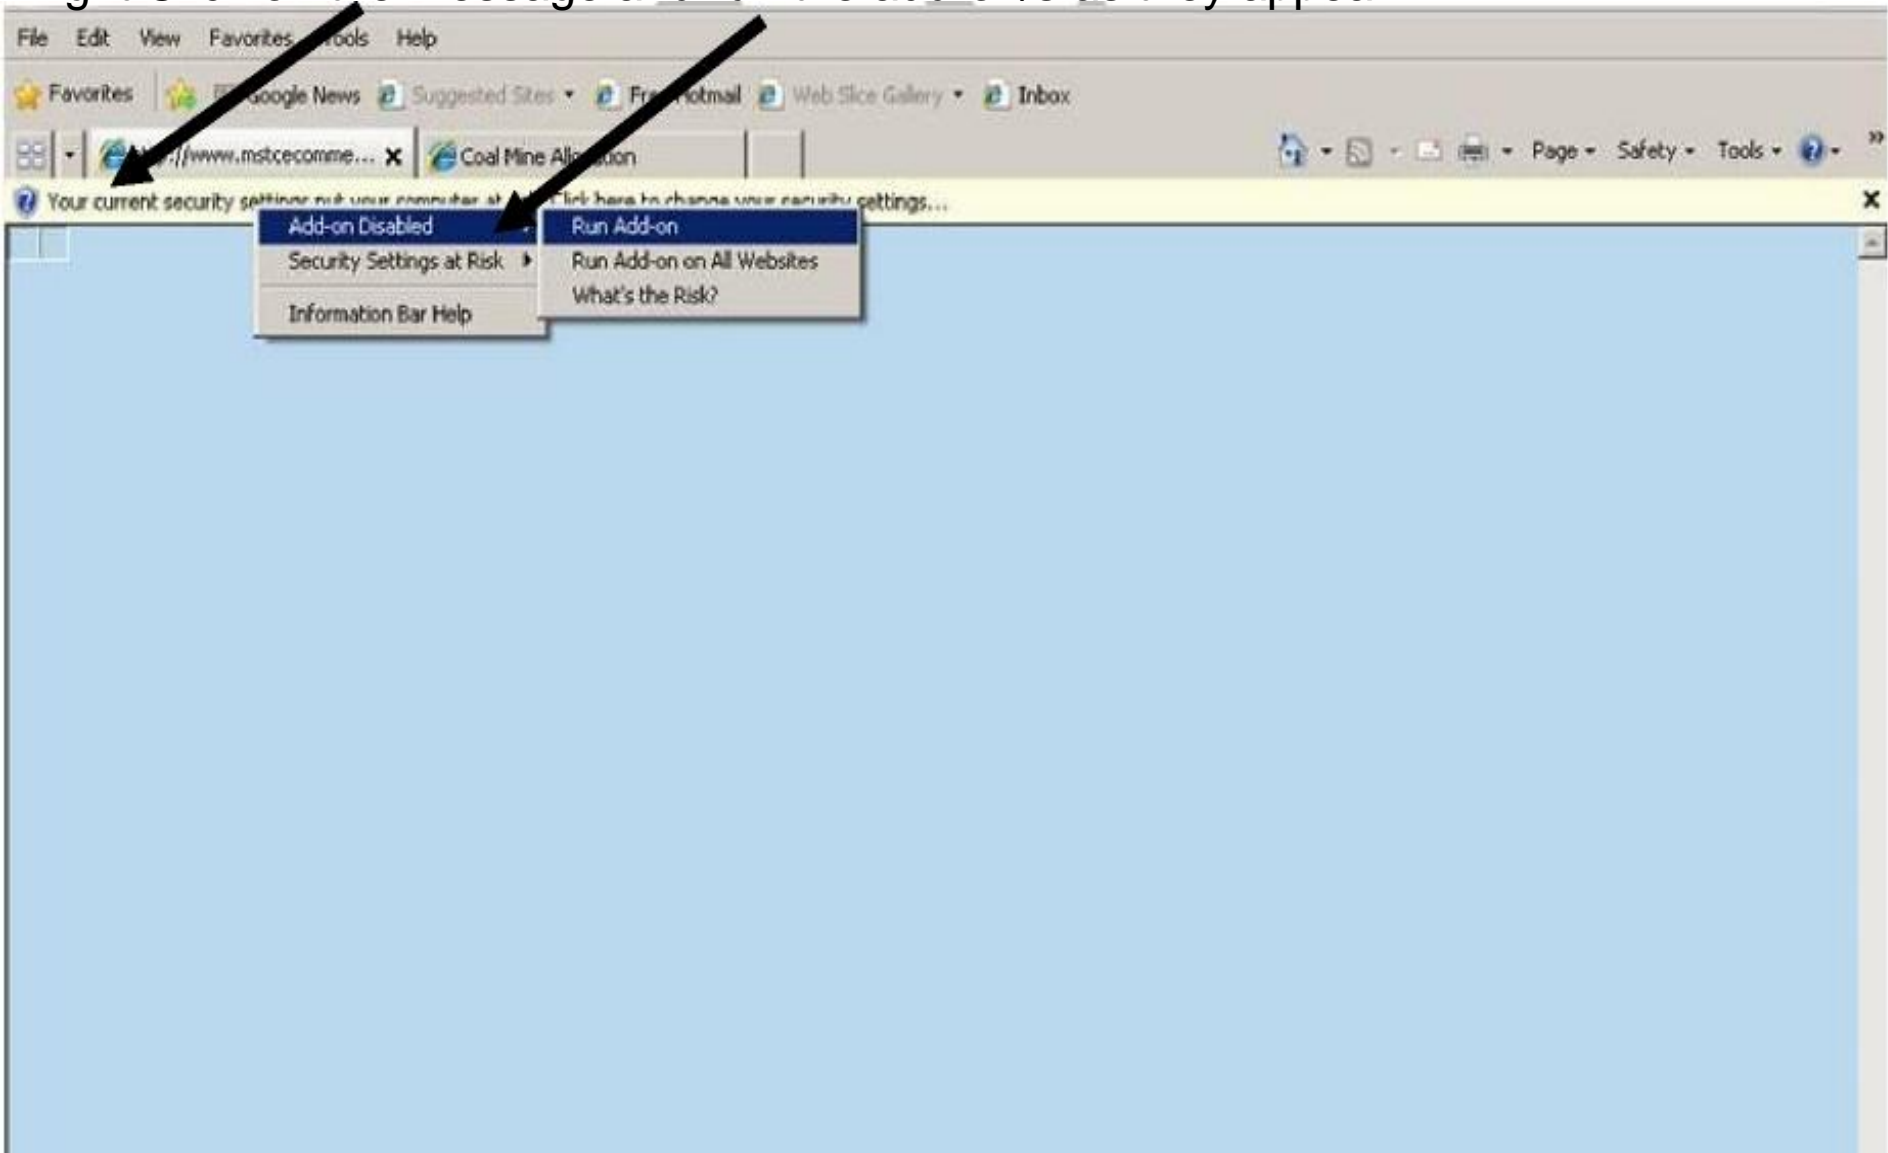

The PC should run as an **Administrator** to install packages on being prompted on screen like TCS signer file for signing with DSC, Java encryption applet for data encryption, etc.

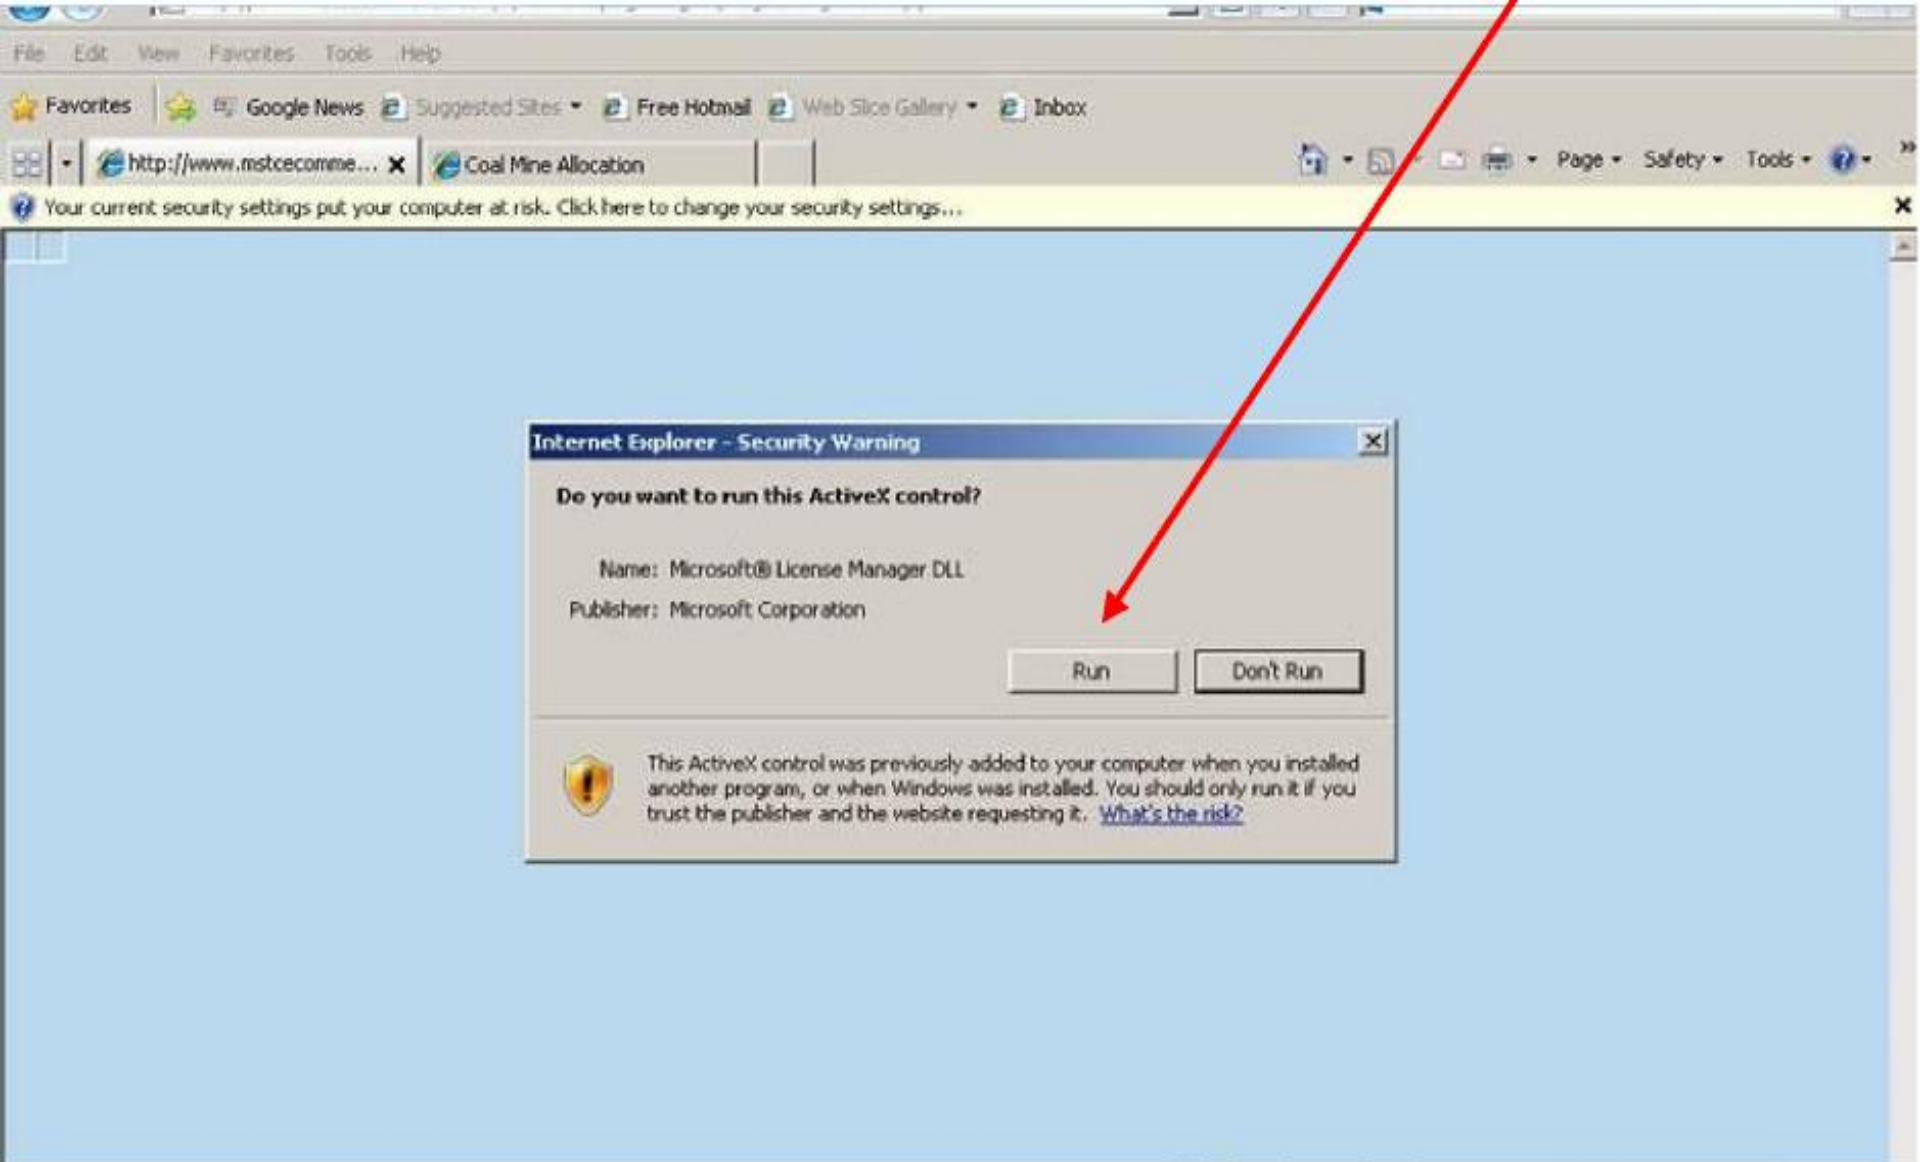

After Changing the settings the message might appear on your screen
“**Your current security settings put your computer at risk. Click here to change your security settings**” as shown in subsequent screenshots. This should not be fixed under any circumstances. Initially it might appear with a blue question mark as below

In the above case, the **blue question mark** sign indicates that the website wants to run certain add-on/s. That should be done by right clicking on the icon and running the add-ons as shown in subsequent screenshots.

Right Click on the message and run the add-on/s as they appear.

Another add-on “**TCS Signer**” also needs to run similarly to allow DSC’s to sign digitally.
