

Urgent Notification

on

Internet Explorer Version and Settings

All concerned are hereby informed that some security enhancement has been made on MSTC's e-Portal <https://www.mstcecommerce.com> for which following are necessarily required to be ensured by all concerned bidders and sellers:

- 1) TLS 1.2 is enabled on your Internet Explorer browser to access the website. It may be checked through Tools --> Internet Options --> Advanced tab on Internet Explorer browser.
- 2) Internet Explorer version 10 or above (Including Microsoft Edge in Internet Explorer mode) is required to be used.

Above supersedes all similar instructions issued anywhere on MSTC e-Portal regarding IE version and TLS Settings in Internet Browser.
